PROFESSIONAL SUMMARY

Dedicated and accomplished Senior Software Consultant with a strong foundation in Scala and Akka, specializing in delivering innovative solutions and empowering organizations to achieve tactical and strategic business objectives. With a proven track record in leading development teams and architecting robust systems, I excel in driving success within the IT consulting and software development domains, with strong interest in Functional Programming, Artificial Intelligence, and Reactive Systems.

WORK EXPERIENCE

Senior Software Consultant (Scala / Akka) | *Improving Ottawa Inc.*
February 2022 - Present, *Ottawa*

- Leveraging Scala and Akka expertise to deliver cutting-edge digital solutions, enhancing client experiences and operational efficiency in IT consulting and software development. Resulted in heightened project success and streamlined processes, marking a significant impact on business outcomes.

- I swiftly resolved critical issues by conducting thorough troubleshooting of API and Kafka integrations.

Senior Developer (Scala / Akka) | *YoppWorks Inc.*
September 2021 - February 2022, *Ottawa*

- Utilized expertise in Scala and Akka to drive a transformation in software development, resulting in innovative solutions aligned with Functional Programming principles.

- Collaborated with cross-functional teams to brainstorm and implement technically sound solutions, demonstrating strong communication and team collaboration skills.

Senior Software Engineer (Scala / Akka) | *ITC Systems*
June 2020 - August 2021, *Kano*

- Enhanced integration efficiency with major national banks by 60% through meticulous design and API implementation, facilitating seamless integration with the KIGRA platform.

- Led tech sessions, setting code quality standards, and conducting code reviews, ensuring the delivery of high-quality technology solutions to corporate and government entities.

Senior Software Engineer | *Byteworks*
March 2020 - June 2020, *Abuja*

- Pioneered several critical features and endpoints in project Neptune, showcasing strong problem-solving abilities and a collaborative approach.

Software Developer | *SW Global*
February 2019 - March 2020, *Abuja*

- I optimized operational flow for *Innovate**1**Pay in nationwide branches, enhancing efficiency by 50%. By conceptualizing, building, and sustaining a dynamic queuing system, customer service and transaction processing were significantly streamlined, elevating overall client satisfaction.

- I enhanced the Nigerian Customs Service (NCS) system by adopting a microservices approach, resulting in quicker deployments, faster feature integration, and a remarkable performance boost exceeding 25%. This shift revolutionized how we operate, driving greater efficiency and responsiveness in service delivery.

Software Engineer | *Kano State Internal Revenue Service(KIRS)*
March 2017 - February 2019, *Kano*

- I accelerated the license plate application process by 70% by crafting and implementing an optimized backend system. This transformation significantly expedited processes, ensuring swift and efficient services.

Software Engineer | *Cyapex Digital Solutions*
November 2014 - Match 2017, *Kano*

- I revolutionized local restaurant management by crafting AKUSHI, an innovative application, enhancing operational efficiency and customer experience. This achievement resulted in a 30% increase in daily transaction processing, elevating overall service quality and client satisfaction.

EDUCATION & CERTIFICATIONS

M.Sc Computer Science | *African University of Science & Technology | Abuja, Nigeria*   2016 – 2017

B.Sc Computer Science | *Bayero University | Kano, Nigeria*   2009 – 2014

Certified Reactive Architect | *Lightbend*   2020

Oracle Certified Associate, Java SE 8 Programmer | *Oracle Corporation*   2018

Big Data Developer Mastery Award | *IBM*   2017

SKILLS / TOOLS
Scala, Akka, Cats, Cats Effects, Doobie, Kafka, Postgres, Redis, DDD, Event Sourcing, MongoDB, Docker, Github, and Kubernates.
